

COMPANY PROFILE PT. EKUATOR GEOSAINS INDONESIA (EGS INDONESIA)

EGS INDONESIA
Integrated Exploration Services in Mining, Geothermal, Oil, Gas, and Environment

Exploration Services

Administration Office :
GKM Green Tower Floor 2, R.201
Jl. TB. Simatupang Kav.89G Kebagusan
Pasar Minggu, Jakarta Selatan, 12520

Operational Office :
Jl. H. Sa'abun No. 21, Jati Padang
Pasar Minggu, Jakarta Selatan, 12540
Phone : (+62)21 27808228

Exploration Services

ABOUT US

EGS Indonesia is a geophysical services company which services exploration companies in oil, gas, geothermal, mineral, and environment. As a geophysical services company, we offer geophysics survey service, geological survey service with high sensitivity of geophysical tools and expertise to the clients in subsurface targets.

EGS Indonesia is focusing on a leading geoservice provider in ground geophysical data acquisition and data processing by providing our best services in a safe and timely manner.

Our personnel have experienced in geophysical and geological exploration in Middle East, United Kingdom, Fiji Islands, China, India, Indonesia and other countries in South East Asia, and supported by educational background in geology and geophysics.

OUR SERVICES

GEOPHYSICAL SURVEYS

EGS Indonesia provides a wide range of ground geophysical surveys using in-house equipment and expertise. It has experienced field technicians available for data acquisition using a variety of techniques, which include:

- Induced Polarization
- Resistivity
- Surface Electromagnetics
- Gravity
- Radiometrics
- Ground Penetrating Radar
- CSAMT/MT/TDEM/TEM
- Magnetics
- Topographic survey

VISION

Become a leading and trusted company in exploration services through professional exploration services, accurate, timely and cost-effective.

MISSION

We pride ourselves on the quality of our work and provide our clients with the best results.

OUR EQUIPMENT

Geometrics G856 proton precession magnetometer
Gravity meter Lacoste & Romberg
Ares Resistivity/IP meter
MALA Ground Penetrating Radar
Zonge GGT-10 Transmitter
Zonge GDP-32 Receiver
Zonge GDP-16 Receiver
Zonge GDP-32 II Receiver
Zonge XMT-32 Transmitter Controller
Zonge VR-1B Voltage Regulator
Zonge ZT-30 TEM Transmitter
Zonge CSAMT/MT/TEM Coil
ETS Topcon 220/ Nikon DTM-322
DGPS Leica 1220/ Hi Target V-20
DGPS Trimble RTK 5700

A. COMPANY PROFILE

Ekuator Geosains Indonesia is a geophysical services company which services exploration companies in oil, gas, geothermal, mineral and environment. As a geophysical services company, we offer geophysics survey service, geological service with high sensitivity of geophysical tool and expertise to the client in subsurface targets.

Ekuator Geosains Indonesia is focusing on a leading geoservice provider in ground geophysical data acquisition and data processing by providing our best services in a safe and timely manner.

Our personnel have experienced in geophysical and geological exploration in Middle East, United Kingdom, Fiji Island, China, India, Philippine and other countries in South East Asia and supported by educational background in geology and geophysics.

B. VISION

Become a leading and trusted company in exploration services through professional exploration services, accurate, timely and cost-effective.

C. MISSION

We pride ourselves on the quality of our work and provide our client with the best results.

D. QUALIFICATIONS

Name Company : **PT EKUATOR GEOSAINS INDONESIA**

IUJP (Ijin Usaha Jasa Pertambangan) from Dirjen Minerba ESDM

Administration Office	: GKM Green Tower, Floor 2, R.201 Jl. TB. Simatupang Kav.89G Kebagusan, Pasar Minggu, Jakarta Selatan, 12520
Operational Office	: Jl. H. Sa'abun No.21, Jati Padang, Pasar Minggu, Jakarta Selatan, Indonesia, 12540
Phone	: +62 21 27808228
Facsimile	: +62 21 27808228
Email	: info@geophysicsindonesia.com
Website	: www.geophysicsindonesia.com
Services	: Geophysical Survey and Topographic Survey

Personnel	:	Ir. Maman Suherman (<i>Director</i>)
	▪	Asep Saepudin (Field Geophysicst Engineer)
	▪	Ria A. Arsinta S.E.(Administration)

E. JOB SERVICES

1. Geophysical Survey Services :
 - IP (Induced Polarization) Resistivity Survey
 - Ground Magnetic Survey
 - Ground Gravity Survey
 - Ground Penetrating Radar Survey
 - CSAMT Survey
 - Magneto Telluric (MT) Survey
 - EM/TEM (Transient Electro Magnetic) Survey
2. Geological Survey Services :
 - Geological Mapping
 - Geographical Information
3. Topographic Survey Services :
 - Measurement of area boundaries
 - Mapping of Topographic Situations
